DIGITAL C.O.P.S.

SECURITY SOLUTIONS

A DIVISION OF PERRY PROTECH

Digital C.O.P.S. from PERRY proTECH provides security technology that supports the protection of life and property. Our BUS proTECT Mobile Video Solution provides an in-vehicle DVR/Camera solution for bus safety and security. Protect your passengers and drivers while securing any evidence you may need in case of an incident occurring on or with your fleet. This system provides up to 4 channels of video and audio recordings. The rugged design holds up well under today's demanding driving conditions. And, it has an easy user interface and is expandable.
